

The National Center for Disaster Preparedness, of the Earth Institute, Columbia University has been awarded six U.S. Federal Emergency Management Agency (FEMA) grants (2016-2023). These programs focus on post-disaster economic and housing recovery, with a particular emphasis on the ways in which communities can more effectively prepare for and bounce back from catastrophic events. The free curricula, available across the U.S. in both instructor-led and web-based modalities, include several collaborative activities, planning tools, tool kits, and geographic information system resources that learners can incorporate into their work practices. Below, please find currently available course offerings as well as upcoming courses.
